## Plastic Metal

WEICON Plastic Metal is ideal for providing fast, cost-effective and durable repairs and coatings to many different types of material.

### WEICON HB 300

- steel-filled
- pasty
- high temperature resistant up to +280°C

1,0 kg ✓

10450010

### WEICON SF

- steel-filled
- fast-curing
- certified by Germanischer Lloyd

0,5 kg ✓

10250005

2,0 kg ✓

10250020

Quick repair of a leaky water pipe with WEICON SF

## Repair Sticks

The uncomplicated solution for all repair and maintenance works. Easy to use. Always the right portion, even for small repairs.

Sealing of an exhaust pipe

### Steel

Certified to NSF/ANSI 61

- fast-curing, steel-filled
- colour dark-grey
- NSF approval for drinking water ANSI Standard 61
- temperature resistant from -50°C to +120°C (-58 to +248°F)

57 g ✓

10533057

115 g ✓

10533115

### Titanium

- wear resistant
- colour grey-green
- high-temperature resistant from +280°C (briefly up to +300°C)

57 g ✓

10535057

115 g ✓

## Epoxy Adhesives

### Fast-Metal Minute Adhesive

- highly filled, pasty
- very short pot life
- fast-curing

24 ml ✓  
10551024

-50°C (-58°F)  
to +145°C (+293°F)

### Epoxy Minute Adhesive

- viscous
- self-levelling
- fast-curing

24 ml ✓  
10550024

## Plastic-Bond

WEICON Plastic-Bond is a solvent-free structural adhesive with very good adhesion to plastics. The adhesive is suitable for static as well as dynamic loads, has a high impact and peel strength and a maximum gap filling capacity of 5 mm.

- excellent adhesion on plastics
- high strength
- shock and impact resistant

24 ml ✓  
10565024

### Quadro Mixing Nozzle

Epoxy Minute Adhesive and Plastic-Bond can alternatively be processed with Quadro Mixing Nozzle

10650005

## Polyurethane Systems

High-strength, fast-hardening 2-component structural adhesives based on polyurethane with excellent adhesion on a broad range of materials. The high-viscosity formulation enables application even on vertical surfaces.

### Easy-Mix PU-90

- high strength and highly viscous
- can be sanded and painted over after approx. 30 minutes
- pot life of 90 seconds

50 ml ✓  
10751050

### Easy-Mix PU-240

- high strength and highly viscous
- can be sanded and painted over after approx. 30 minutes
- pot life of 240 seconds

50 ml ✓  
10753050

Gluing an aluminium pipe onto a plastic front panel

For further packing sizes and more detailed product information, please visit our website [www.weicon.com](http://www.weicon.com)

## WEICONLOCK® - Anaerobic Adhesives and Sealants

Especially made for economical threadlocking, retaining and sealing of threaded, cylindrical and pipe assemblies.

After curing, it provides a shock- and vibration-resistant joint with good resistance to chemicals, solvents and temperatures from -60°C to +150°C.

Securing a screw on a transverse control arm

### AN 302-43

**TZW**

- threadlocking
- KTW approval for drinking water and DVGW approval

higher viscosity • medium strength  
disassembly with normal tools

50 ml ✓  
30243150

### AN 302-70

- locking of threads and stud bolts
- DVGW approval

medium viscosity • high strength  
hard to disassemble

50 ml ✓  
30270150

### AN 305-42

- hydraulic and pneumatic sealing
- DVGW approval

medium viscosity • medium strength  
disassembly with normal tools

50 ml ✓  
30542150

### AN 306-38

- adhesive for bearings and bolts
- for bearings, bushings, gear wheels and bolts when gaps are up to 0,2 mm

medium viscosity • high strength  
hard to disassemble

50 ml ✓  
30638150

### AN 305-77

# WEICON Solutions for Agricultural Technology

## Easy-Mix RK-7000

WEICON Easy-Mix RK-7000 can be used to bond numerous materials such as plastics, metals and ceramics to themselves and among each other with high tensile, shear and peel strength.

Easy-Mix RK-7000 can be used universally and, for example, in plastics technology, metal construction, car body and vehicle construction, machine construction, electrical engineering, wood processing and in trade show and exhibition construction.

- high viscosity, high strength, impact resistance, residual elasticity
- pot life: approx. 15 minutes
- temperature resistance from -55°C up to +125°C

## Elastic Adhesives and Sealants

Elastic adhesives and sealants are used today in many areas of industrial production and assembly. They combine the advantages of adhesive bonding and sealing technology and are used wherever the elasticity and the sealing of a joint are the most important requirements.

### Silicone A

- especially designed for professional applications
- acetate cross-linking

# WEICON Solutions for Agricultural Technology

## Multi-Flex

WEICON Multi-Flex is extremely fast curing, has a strong adhesion, is resistant against weathering, aging and UV. It is free from silicones and isocyanates, odorless and non-corrosive.

The 2-component adhesive and sealant based on MS-polymer is suitable for full-area and stresscompensating bondings – both indoors and outdoors.

- extremely fast curing
- strong adhesion
- elastic

310 ml ✓  
13362025

Can alternatively be processed with Quadro Mixing Nozzle (Art.-No. 10650005).

## WEICON GMK

GMK products are various contact adhesives for bonding rubber and metal.

Contact Adhesive  
Rubber - Metal  
elastic

Bonding of rubber mats in trailer manufacturing

Repair of conveyor belts

### GMK 2410

GMK 2410 is an adhesive based on polychloroprene (CR) for the high-strength, full-surface and flexible bonding of

- rubber to rubber
- rubber to metal

WEICON GK 2410 also bonds cellular rubber (e.g. neoprene), PE foam, leather, felt, insulating material, textiles, wood, and many plastics.

- high strength
- for large surfaces
- resistant to humidity

350 g ✓  
16100350  
brush-top can

### GMK 2510

GMK 2510 bonds rubber, metal, textiles, leather, sponge rubber (neoprene), CSM (Hypalon), insulating materials, PU materials with an adhesive coating, wood and many plastics. After curing the bonding is moisture-proof.

WEICON GMK 2510 is not suitable for materials such as polystyrene foam, polyethylene, polypropylene parts, PVC soft foam and PVC imitation leather.

- strong
- permanently elastic
- temperature resistant

## Technical Sprays and Technical Liquids

### Belt Dressing Spray

- prevents belt slip
- for all kinds of drive belts
- can also be used during ongoing operation

400 ml ✓  
11511400

### Leak Detection Spray

- anticorrosive
- non-flammable
- DVGW approval

400 ml ✓ 5 L ✓  
11651400 15400005

### Starter-Spray

- for diesel and petrol engines
- also at low temperatures until -20°C
- suitable for engines with or without catalyst

400 ml ✓  
11660400

Starting aid for a chain saw

## WEICON Crack Testing Agent

1 Cleaning the surface with the cleaning agent

2 Apply Penetrant and allow to react

3 Clean again to remove excess Penetrant

4 Apply Developer and perform final visual assessment

**Cleaner, Penetrant and Developer for the non-destructive material testing by way of colour penetration process**

### Cleaner/Remover 1 & 3

Material-neutral special cleaner for the colour penetration test. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓  
11692500

### Penetrant 2

Red diffusion agent with excellent penetration characteristics for the non-destructive material testing - washes off with solvent. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓  
11690500

### Developer 4

Colourfast special developer on solvent basis for colour penetration tests. Suitable for metals, many plastics, ceramic materials, glass etc. The suitability for plastic has to be tested in advance.

500 ml ✓  
11691500

#### Standards and regulations

Sample-tested according to DIN EN ISO 3452-2. Low sulphur and halogen content, according to DIN EN ISO 3452-2 and ASME Code, Section V, Article 6. AREVA NP TLV 9017.

# WEICON Solutions for Agricultural Technology

## Anti-Seize - Assembly Pastes/Sprays

All kinds of influencing factors, such as moisture and friction, lead to damage due to corrosion, seizure, and wear on machines and installations. Extensive repair and maintenance work at considerable cost are the result.

Especially under critical conditions of application, such as:

- High operation temperatures
- High pressure loads
- Outdoor weather conditions

where such consequences frequently occur.

### Anti-Seize

- long-lasting protection against corrosion, seizure and wear
- temperature resistant up to +1.200°C (+2.192°F)
- exceptionally good separating effect
